

# Application form AWS3

## For a trough, irrigation system or temporary connection to an existing water main

The form serves as a connection notice under Section 45 and 55 of the Water Industry Act.

This form allows you to apply for a water supply for the following purposes:

- An animal water trough
- An irrigation system
- A temporary water supply for a building (pipe will be decommissioned after a maximum of 12 months use)

This form should not be used to apply for permanent or temporary to become permanent connections. Please complete an AWS1 form for these connections.

If you need any help completing this form, please refer to our guidance notes on our website [unitedutilities.com](http://unitedutilities.com) or call us on **0345 072 6067**.

### NOTE ALL FIELDS ARE MANDATORY

<b>Do you require budget cost?</b> <input type="checkbox"/> Yes <input type="checkbox"/> No <i>Please refer to our current charges sheet. If you need any assistance please call on 0345 072 6067.</i>		
<b>Do you require a formal quotation?</b> <input type="checkbox"/> Yes <input type="checkbox"/> No <i>Please refer to charges sheet for application fee. Formal quotations are valid until the end of the financial year.</i>		
<p>The application fee charges are set out in our Connections Charges sheet. PLEASE NOTE: If you are applying for more than one connection then you need to add the charge for each additional connection as per our current Charges Sheet. Please ensure that you include VAT to the charges shown if sending your payment by cheque. Our application fee does not include a site visit therefore if you do require a visit for site advice etc you will have include the 'Site Visit Charge' as per the current Charges Sheet. Please note you will have to add VAT and include this with your application fee charge.</p>

Greenfield or agriculture <input type="checkbox"/> Housing <input type="checkbox"/> Industry <input type="checkbox"/> Landfill <input type="checkbox"/> Other <input type="checkbox"/> (if other, please specify below)	
Has the site, adjacent site, or any of the land through which you want to lay your water pipe potentially been affected by contamination? (Land that has been previously used or developed)	<input type="checkbox"/> Yes <input type="checkbox"/> No
Are you planning to store any chemicals, fuel or other materials likely to affect the quality of the water passing through your new service pipe?	<input type="checkbox"/> Yes <input type="checkbox"/> No
If you answered 'YES' to any of the questions in this section, you will need to complete a 'Risk Assessment for Water Pipes' form, available at <a href="https://www.unitedutilities.com">unitedutilities.com</a> , and enclose it with this form.	
If you answered 'NO' to all the above, please provide a brief summary of the current and previous land use of your development site, and adjacent sites.	

## Section 7: About your supply pipe connection

Please indicate how many supply pipe connections you need.

Please indicate the type of service pipe you need for each connection:

PE Service (Non contaminated land)

No. of

Barrier Pipe (For use on contaminated land)

No. of

## Section 8: Have you included your supporting documents? *As your application cannot be processed without this information*

### The following document MUST be enclosed with this application form:

A location plan clearly identifying the property(s)/site and surrounding area. This needs to indicate your preferred point of connection.

Yes

### In addition, you may need to submit one or more of the following documents, depending on your circumstances. Please indicate which of the following you are sending to us:

**Letter of authority:** If you are not the owner or occupier of the property that needs a new water connection, please supply an email, fax or letter from the owner, confirming that you are authorised to act on their behalf.

Yes  N/A

**Water re-use systems:** If you are installing any type of rainwater harvesting or water re-use system, please enclose full details of the equipment being used, including details of the manufacturer and installer of the system.

Yes  N/A

**Risk assessment for water pipes form:** If there has ever or could be any possibility of soil contamination on the land being re-developed, you must enclose a 'Risk Assessment for Water Pipes' form, available at [unitedutilities.com](http://unitedutilities.com)

Yes  N/A

**F10 notice:** If your development is intended for trade, business or community use, and the construction work is expected to last more than 30 days, you will need to provide a copy of your Health and Safety Executive F10 notice along with this form.

Yes  N/A

## Declaration

By submitting this form, I confirm that:

- I wish to apply for a new water connection(s) for the development listed in Section 2
- I have provided all the information requested, including supporting documents described in Section 8
- I agree to pay the application fee
- I understand that this is a connection notice under Section 45 of the Water Industry Act
- If you need to re-inspect the pipework, then a re-inspection charge will apply as per your current Charges Sheet and payment must be made before a re-inspection appointment can be arranged.
